## LIVE OAK BANCSHARES, INC. REPORTS FOURTH QUARTER 2018 RESULTS

Wilmington, NC, January 23, 2019 - Live Oak Bancshares, Inc. (Nasdaq: LOB) ("Live Oak" or "the Company") today reported fourth quarter net earnings available to common shareholders of \$10.5 million, or \$0.26 per diluted share, compared to \$71.7 million, or \$1.74 per diluted share, for the fourth quarter of 2017. Net earnings for the year ended December 31, 2018 totaled \$51.4 million, or \$1.24 per diluted share, compared to \$100.5 million for the year ended December 31, 2017, or \$2.65 per diluted share. The fourth quarter of 2017 included a one-time pretax gain of \$68.0 million related to an equity method investment in Apiture, LLC ("Apiture"), an \$18.9 million revaluation of the Company's net deferred tax liability, and several other smaller non-routine costs.

During the fourth quarter of 2018, the Company implemented a strategic decision to retain a larger portion of its loans eligible for sale on balance sheet in order to reduce earnings volatility and maximize long-term profitability with what the Company believes is a more predictable earnings model.

"We are very pleased with the contributions Live Oak made in 2018 to the success of small business owners and to the changing landscape of the financial services industry. We exited the year having originated just under \$1.8 billion in loans and leases. Recurring revenue grew 34% compared to 2017 with ample capital and strong sustained liquidity, further reflecting traction in strategic initiatives designed to maximize our unique business model. We anticipate that our recent decision to retain more of our loan production will bring more predictability to our growing revenue streams. Our technology and people investments have us well-positioned to serve more small businesses across the U.S. while also meaningfully contributing to the transformation of the financial services industry. As we head into 2019, we will continue to focus on investments in our employees, customers and our community," said James S. Mahan, III, Chief Executive Officer of Live Oak.

### Year over Year Highlights

(Dollars in thousands, except per share data)

### Loans and Leases

At December 31, 2018, the total loan and lease portfolio of \$2.53 billion increased 25.0% from its level a year ago and 11.1% from its level at September 30, 2018. Compared to the third quarter of 2018, loans and leases held for investment increased \$212.1 million, or 13.0%, to \$1.84 billion while loans held for sale increased \$40.9 million, or 6.3%, to \$687.4 million. Loan and lease originations totaled \$499.0 million during the fourth quarter of 2018, an increase of \$121.7 million, or 32.2%, from the third quarter of 2018. Originations for year ended December 31, 2018 declined by 8.7% to \$1.77 billion compared to \$1.93 billion for the year ended December 31, 2017. The total loan and lease portfolio at December 31, 2018, and September 30, 2018, of \$2.53 billion and \$2.28 billion, respectively, comprised approximately 62.0% and 64.4% of unguaranteed loans and leases, respectively.

Average loans and leases were \$2.40 billion during the fourth quarter of 2018 compared to \$2.31 billion during the third quarter of 2018.

### Deposits

Total deposits increased by \$225.3 million, or 7.7%, to \$3.15 billion at December 31, 2018 from \$2.92 billion at September 30, 2018, consistent with desired liquidity levels and the growing loan and lease portfolio. Average total interest-bearing deposits for the fourth quarter of 2018 increased \$31.9 million, or 1.1%, to \$2.94 billion, compared to \$2.91 billion for the third quarter of 2018. The ratio of average total loans and leases to average interest-bearing deposits was 81.7% for the fourth quarter of 2018, compared to 79.3% for the third quarter of 2018.

### Net Interest Income

Net interest income for the fourth quarter of 2018 rose to \$28.8 million compared to \$23.0 million for the fourth quarter of 2017 and \$27.7 million for the third quarter of 2018. The increase from the prior year was driven by the significant growth in the combined held for sale and held for investment loan and lease portfolios along with higher investment security holdings reflecting the Company's ongoing initiative to grow recurring revenue sources. The increase from the third quarter of 2018 arose from a higher average loan and lease portfolio balance and an improved yield on interest earning assets of thirty-three basis points. The net interest margin for the fourth quarter of 2018 increased eleven basis points to 3.72% versus 3.61% in the third quarter of 2018 as the increased yield on the loan and lease portfolio outpaced the increase in the average rate of interest bearing deposits. The Company anticipates that it is positioned to benefit from a rising rate environment with 72.3% of the total held for sale and held for investment loan and lease portfolio priced at variable rates that adjust on either a calendar monthly or quarterly basis.

## **Noninterest Income**

Noninterest income for the fourth quarter of 2018 decreased to \$18.1 million compared to \$95.4 million for the fourth quarter of 2017 and \$24.3 million for the third quarter of 2018.

The primary driver of the decrease in noninterest income compared to the fourth quarter of 2017 was the \$68.0 million one-time gain arising from the Company's equity method investment in Apiture.

Also, largely contributing to the decrease in noninterest income compared to the fourth quarter of 2017 and third quarter of 2018 were lower net gains on sales of loans. The Company's net gains on sales of loans decreased to \$5.7 million in the fourth quarter of 2018 compared to \$23.3 million in the fourth quarter of 2017 and \$22.0 million in the third quarter of 2018. The volume of guaranteed loan sales in the fourth quarter of 2018 declined to \$104.6 million compared to \$211.7 million in the fourth quarter of 2017 and \$298.1 million in the third quarter of 2018. The decline in loan sale volumes is consistent with the Company's recent strategic shift to hold substantially more of its production on balance sheet. The average net gains on guaranteed loan sales decreased to \$59.8 thousand per million sold in the fourth quarter of 2018 versus \$110.2 thousand in the fourth quarter of 2017 and \$71.8 thousand in the third quarter of 2018. The decline in average net gains on guaranteed loan sales for the fourth quarter of 2018 compared to the fourth quarter of 2017 and third quarter of 2018 was impacted by fair value fluctuations in exchange-traded interest rate lock commitments amounting to a net loss of \$1.8 million and \$38 thousand for the fourth quarter of 2018 and 2017, respectively, and a net gain of \$770 thousand for the third quarter of 2018. This resulted in a reduction to the average net gains on guaranteed loan sales of \$17.6 thousand per million sold and \$0.2 thousand in the fourth quarter of 2018 and 2017, respectively, and an increase of \$2.6 thousand per million sold in the third quarter of 2018. The decline in average loan sale pricing from the fourth quarter of 2017 was also largely influenced by deteriorating market conditions and the higher interest rate environment which led to increased prepayment speeds. Other factors contributing to the decline from the third quarter of 2018 was the specific mix of loans sold by the Company rather than market conditions for the purchase of guaranteed loans which were generally improved during the fourth quarter.

Partially offsetting the overall decline in noninterest income compared to the fourth quarter of 2017 and third quarter of 2018 were increases in loan servicing revenues, lower losses from the loan servicing asset revaluation and higher lease income.

Loan servicing revenues of \$7.8 million in the fourth quarter of 2018 rose by \$1.8 million, or 29.2%, from the fourth quarter of 2017 and by \$246 thousand, or 3.3%, from the third quarter of 2018. The net loss resulting from the revaluation of the servicing asset totaled \$627 thousand for the fourth quarter of 2018, a decrease of \$5.7 million compared to the fourth quarter of 2017 and a decrease of \$8.8 million compared to the third quarter of 2018, largely because of the aforementioned improvement in market conditions during the fourth quarter.

Lease income from solar panels contributed \$2.2 million in noninterest income in the fourth quarter of 2018, compared to \$1.2 million in the fourth quarter of 2017 and \$2.2 million in the third quarter of 2018. The Company began offering operating lease agreements for solar panels to third parties at the end of the first quarter of 2017.

## **Noninterest Expense**

Noninterest expense for the fourth quarter of 2018 decreased to \$32.6 million compared to \$41.0 million for the fourth quarter of 2017 and \$41.2 million for the third quarter of 2018.

Salaries and employee benefits for the fourth quarter of 2018 decreased to \$14.5 million compared to \$19.0 million for the fourth quarter of 2017 and \$20.6 million for the third quarter of 2018. These declines were largely influenced by the Company's reversal of accrued incentive compensation due to not meeting budgeted performance metrics for the year ending December 31, 2018 along with the exit from the title insurance business during the prior quarter. These decreases were partially offset by the ongoing expansion of the Company's workforce and infrastructure to support its initiatives.

Another factor contributing to the lower noninterest expense level was the absence of impairment expense related to Reltco which was \$3.6 million for the fourth quarter of 2017 and \$2.7 million for the third quarter of 2018 associated with its sale.

Partially offsetting the decrease in noninterest expense from the fourth quarter of 2017 were increases in travel expense of \$1.2 million attributable to routine maintenance for corporate aircraft and equipment expense of \$1.2 million related to higher levels of depreciation related to solar panels acquired for the Company's renewable energy leasing business. Travel expense increased \$1.3 million compared to the third quarter of 2018 also attributable to routine maintenance for corporate aircraft during the fourth quarter of 2018.

### **Asset Quality**

The unguaranteed exposure of nonperforming loans increased to \$14.5 million, or 0.79% of total loans and leases held for investment, at December 31, 2018, compared to \$12.9 million, or 0.79%, at September 30, 2018. Total nonperforming loans increased to \$57.7 million in the fourth quarter of 2018 from \$52.7 million at the end of the prior quarter.

The unguaranteed exposure of foreclosed assets decreased to \$148 thousand at December 31, 2018, from \$158 thousand at September 30, 2018. Foreclosed assets decreased \$335 thousand to \$1.1 million at December 31, 2018, from \$1.4 million at September 30, 2018.

Net charge-offs of \$1.2 million in the fourth quarter of 2018 decreased compared to \$2.3 million in the third quarter of 2018 and increased compared to \$892 thousand in the fourth quarter of 2017. Net charge-offs as a percentage of average held for investment loans and leases, annualized, for both quarters ended December 31, 2018 and 2017, was 0.28%. Net charge-offs for the twelve months of 2018 totaled \$4.8 million compared to \$3.6 million for the twelve months of 2017.

### **Provision for Loan and Lease Losses**

The provision for loan and lease losses for the fourth quarter of 2018 totaled \$6.8 million compared to a negative provision expense of \$243 thousand for the third quarter of 2018 and a provision expense of \$4.1 million for the fourth quarter of 2017. The increase in provision expense was largely the result of growth in the loan and lease portfolio combined with increases in classified and past due loans over the past year. The quarter over quarter change was further magnified by the \$2.9 million reduction in provision during the third quarter of 2018 due to updated loss factors, consistent with our methodology for estimating the allowance for loan and lease losses.

The allowance for loan and lease losses totaled \$32.4 million at December 31, 2018, compared to \$26.8 million at September 30, 2018. The allowance for loan and lease losses as a percentage of total loans and leases held for investment was 1.76% and 1.64% at December 31, 2018, and September 30, 2018, respectively.

### **Income Tax**

There was a net income tax benefit in the fourth quarter of 2018 of \$3.0 million compared to net income tax expense of \$1.6 million in the fourth quarter of 2017 and a net income tax benefit of \$3.2 million in the third quarter of 2018. The Company's effective tax rate is predominantly driven by the leasing of renewable energy assets which generated \$20.3 million and \$24.9 million in investment tax credits for the years ended December 31, 2018 and 2017, respectively. As the lessor of these assets, the Company is accomplishing broader strategic initiatives in the renewable energy sector.

### **Conference Call**

Live Oak will host a conference call to discuss quarterly results at 9:00 a.m. ET tomorrow morning (January 24, 2019). Media representatives, analysts and the public are invited to listen to this discussion by calling (844) 743-2494 (domestic) or (661) 378-9528 (international) with conference ID 9893275. A live webcast of the conference call along with presentation materials referenced during the conference call will be available on the Investor Relations page of the Company's website at <http://investor.liveoakbank.com>. A replay of the webcast will be archived on the Company's website for one year. A replay of the conference call will also be available until 5:00 p.m. ET January 31, 2019 and can be accessed by dialing (855) 859-2056 (domestic) or (404) 537-3406 (international).

### **CFO Commentary**

Additional commentary on the quarter by Brett Caines, Chief Financial Officer of the Company, is available at <http://investor.liveoakbank.com> in the supporting materials for the conference call.

## **Important Note Regarding Forward-Looking Statements**

Statements in this press release that are based on other than historical data or that express the Company's plans or expectations regarding future events or determinations are forward-looking within the meaning of the Private Securities Litigation Reform Act of 1995. Statements based on historical data are not intended and should not be understood to indicate the Company's expectations regarding future events. Forward-looking statements provide current expectations or forecasts of future events or determinations. These forward-looking statements are not guarantees of future performance or determinations, nor should they be relied upon as representing management's views as of any subsequent date. Forward-looking statements involve significant risks and uncertainties, and actual results may differ materially from those presented, either expressed or implied, in this press release. Factors that could cause actual results to differ materially from those expressed in the forward-looking statements include changes in Small Business Administration ("SBA") rules, regulations or loan products, including the Section 7(a) program, changes in SBA standard operating procedures or changes in Live Oak Banking Company's status as an SBA Preferred Lender; changes in rules, regulations or procedures for other government loan programs, including those of the United States Department of Agriculture; a reduction in or the termination of the Company's ability to use the technology-based platform that is critical to the success of its business model, including a failure in or a breach of operational or security systems; competition from other lenders; the Company's ability to attract and retain key personnel; market and economic conditions and the associated impact on the Company; operational, liquidity and credit risks associated with the Company's business; the impact of heightened regulatory scrutiny of financial products and services and the Company's ability to comply with regulatory requirements and expectations; and the other factors discussed in the Company's Annual Report on Form 10-K filed with the Securities and Exchange Commission ("SEC") and available at the SEC's Internet site (<http://www.sec.gov>). Except as required by law, the Company specifically disclaims any obligation to update any factors or to publicly announce the result of revisions to any of the forward-looking statements included herein to reflect future events or developments.

This press release presents the non-GAAP financial measures previously shown. The adjustments to reconcile from the applicable GAAP financial measure to the non-GAAP financial measures are included where applicable in financial results presented in accordance with GAAP. The Company considers these adjustments to be relevant to ongoing operating results. The Company believes that excluding the amounts associated with these adjustments to present the non-GAAP financial measures provides a meaningful base for period-to-period comparisons, which will assist regulators, investors, and analysts in analyzing the operating results or financial position of the Company. The non-GAAP financial measures are used by management to assess the performance of the Company's business for presentations of Company performance to investors, and for other reasons as may be requested by investors and analysts. The Company further believes that presenting the non-GAAP financial measures will permit investors and analysts to assess the performance of the Company on the same basis as that applied by management. Non-GAAP financial measures have inherent limitations, are not required to be uniformly applied, and are not audited. Although non-GAAP financial measures are frequently used by shareholders to evaluate a company, they have limitations as an analytical tool and should not be considered in isolation or as a substitute for analysis of results reported under GAAP.
